Re: 2024-25 Academic Calendar
Date: April 16, 2025

Members of the Board of Education,

Over the last several months, the Calendar Committee has met to discuss several considerations for this year's calendar with the 12 inclement weather days we experienced. There were several considerations when adjusting this year's calendar, and we focused on how we can continue to serve our students and have an excellent environment for teachers and staff! We are adjusting our AMI practices and trying to capture students' input as we change those student learning days.

Multiple adjustments were made to the original calendar; we have captured several below. They include the intent of the original calendar and adjustments made based on missed school days or changes from DESE:

- One inclement weather day
- Six Alternative Methods of Instruction (AMI)
- March 14 changed to an Early Release and Work Day
- April 18 changed to an Early Release and Professional Development Day
- May 23, 27, and 28 were added as student attendance days
- May 28 is an Early Release day
